Sensio Lighting introduces the HD LED over cabinet light

Renowned lighting specialist, Sensio, has extended its extensive product portfolio with the launch of the HD LED over cabinet light; SE9015HD.

Creating a fresh and spacious feeling, Sensio's latest lighting solution brings light to the darkest areas of the kitchen. Sleek and contemporary, the over cabinet light has a slender adjustable body with an Aluminium effect finish. Producing a cool white light, the SE9015HD will provide useful illumination to cupboards in addition to creating a striking and modern statement.

Reflective of Sensio's commitment to energy efficient lighting, the SE9015HD contains 24 high powered HD LED diodes. Requiring a mere 1.65W, the highly practical and efficient SE9015HD boasts an impressive 60,000 hour lamp life to ensure that replacements will be few and far between. The SE9015HD measures L250mm x W340mm x D15mm.

The HD LED over cabinet light SE9015HD retails from £17.95 including VAT. For further details on Sensio, please call 0845 0340 780 or visit www.sensio.co.uk.
