

Benefits

- Human centric lighting
- Simple installation process
- LED technology for long service life
- Low wattage – reduced energy consumption

Key Features

- CCT – seamless transition from warm to cool white
- Simple to use and easy to install
- Diffused light – no visible dots
- Sleek contemporary appearance
- Elongated design ensures a vast spread of light across the worktop
- Fittings daisy chain together

Product overview

Successor to the Sensio classic, Quadra, the Ark Pro is a new and improved option that is sure to look good in any style of kitchen.

The product features an elongated body which provides a vast spread of light across the worktop – perfect for task lighting, as well as fully diffused light source so no individual diodes can be seen.

CCT technology enables the light source to transition seamlessly from warm to cool white colour temperatures to mimic outside light conditions – a feature that has been scientifically proven to have a positive impact on our health.

Installation is also made quick and simple due to the magnetic casing and daisy-chain method of connecting light's to one-another rather than the driver

Technical Specification

Wattage	2.5W
Voltage	24V
Light output	170 Lumens
Lumens per Watt (Efficacy)	68 lm/W
Colour rendering index	≥80
Beam angle	120°
Colour Temperature	3000 – 5000 Kelvin
Cable Length	1.5 Meter
Operating Temperature	0°C ~ + 55°C
Material	Outer Body - Metal
	Inner Body - Plastic
	Diffuser - Polycarbonate

Order Codes

Description	Order Code	Barcode
Ark Pro	SE11192P0	5060522086956
Ark Pro IR	SE11292P0	5060522086949
