 SE9009 - 2.5m Extension Cable

### Driver:

SE40533 - 6W LED Driver with 4 Port JB4 Distributor

### Dimensions: (mm/inches)

Subject to technical changes

### Key Selling Points:

- Aluminium wardrobe rail light.
- Features an integrated PIR sensor which automatically switches the light on when the wardrobe door is opened.
- PIR will remain on for 30 seconds then switch off to reduce power usage.
- The rail is available in 3 lengths, however can be cut down from the left side if required. Ensure you leave 100mm from the left side of the sensor.
- Contains a soft rubber strip to prevent items from slipping on the rail.
- The maximum weight load of the rail is 20kg.
- Side mounting brackets provided.
- Higher light output and no recharging required, compared to the Alto.
