Installation and operation:

Daisy chain non-sensor fittings to one sensor fitting for synchronised switching of all lighting in the run via the integrated passing hand sensor.

Key Selling Points:

- The lens creates a diffused look for the SLS appearance
- Increased number of LED's for high brightness
- Fittings daisy chain together for simple installation
- New slimline, discreet fitting
- Elongated design means an increased spread of light across the worktop
- Passing hand sensor means that the fitting does not need to be touched
- Low wattage of 2.5W for low energy consumption
